---

*Web developer with experience in building web applications, RESTful APIs, and database management. I love knowing that I have a long road ahead of me and knowing that the process will be the most interesting part. Skilled in JavaScript, Java, Node.js, Express, MongoDB, MySQL with a solid foundation in frontend and backend development.*

## PROFESSIONAL EXPERIENCE

---

### Freelance / Personal Projects

Full-Stack Developer

**Tepic, Nay.**

February 2023–December  
2024

- Developed full-stack web applications integrating backend and frontend solutions.
- Built RESTful APIs using Node.js and Express, supporting CRUD operations
- Created dynamic and responsive frontends with React, HTML and CSS.
- Integrated third-party APIs and optimized database performance for scalability
- Used Git for version control and collaborated using Agile methodologies

### E-commerce Platform

- Created an eCommerce website inspired by Amazon with product visualization and CRUD functionality
- Technologies used: **HTML, CSS, JavaScript, NodeJS, Express, MySQL.**

### CoffeeStore, Freelancer and Shirt Store Website

- Designed and implemented coffee-shop, freelancer and shirt store website with a modern UI and responsive design.
- Technologies used: **HTML, CSS.**

### API Development

- Developed RESTful APIs using Node.js, Express and MongoDB, there were other APIs consumed by clients like Insomnia, GraphQL and Apollo-Server.
- Technologies used: **CSS, Express, React, JavaScript, MongoDB, Apollo-Server, Vite.**
